# OTTO 1746

FIRST Robotics Competition

What is FRC?

- Compete across regional, state, and global levels to build industrial-sized robots.
- Complete different game tasks each year.
- Central's FRC Team also has business, programming, and strategy aspects that make it a fun learning experience.
- **No prior experience is necessary!**

Why should I join FRC at Central?

- Gain real-world experience!
- There's a place for anyone - hands-on engineering activities, computer science, video editing, business relations, and more!
- Opportunity to interact with real company sponsors, industry professional mentors, and other teams from around the world.
